ASSIGNMENT – 04
Student Admission Command Center

Name Saisanjay SS
Reg No : 240701458

1. Objective

To build a single Admission_Command_Center_Page in Zoho Creator using all eleven Page Builder elements to monitor, search, process, and manage student admission enquiries.

2. Application Details

Item	Details
Application	Student Admission Enquiry Management
Page	Admission_Command_Center_Page
Users	Admission Cell and Department Coordinators
Forms/Reports	Admission_Enquiry_Form, Admission_Enquiry_Report, Course_Popularity_Chart

3. Steps to Create the Page

1. Open Zoho Creator and the Student Admission Enquiry Management application.
2. Create a new Page named Admission_Command_Center_Page.
3. Add a Panel as the outer container for the complete page.
4. Add Gauge and Chart elements in the Overview section.
5. Add Search above the Board to find applicants by name, roll number, or course.
6. Add a Button for sending counselling reminders.
7. Add a Board with five stages: Enquiry Received, Document Verification, Counselling Scheduled, Admitted, and Rejected.
8. Add the full Report below the Board.
9. Add Form, Snippets, Viewer, and Widgets in the sidebar or bottom sections.
10. Set permissions, filters, refresh settings, and workflows; then preview and test the page.

4. Page Layout

Overview: Gauge, Chart, and Search.
Processing: Reminder Button and Status Board.
Detailed Data: Full Enquiries Report.
Sidebar: Quick Counter Form, Checklist Snippet, and Viewer.
Operations: Seat Availability and Scholarship Widgets.

5. Sample Output

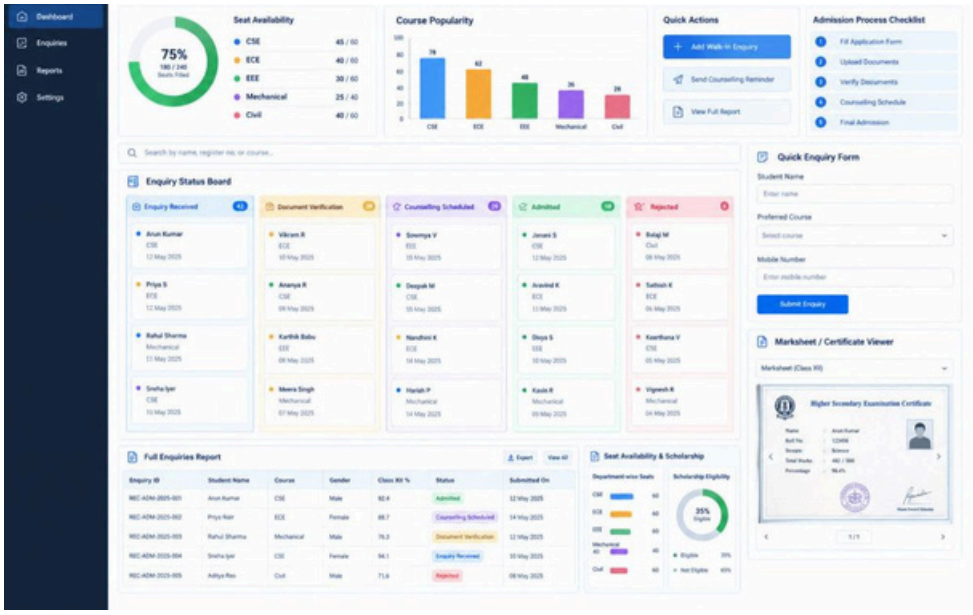

Figure 1: Sample Admission Command Center layout.

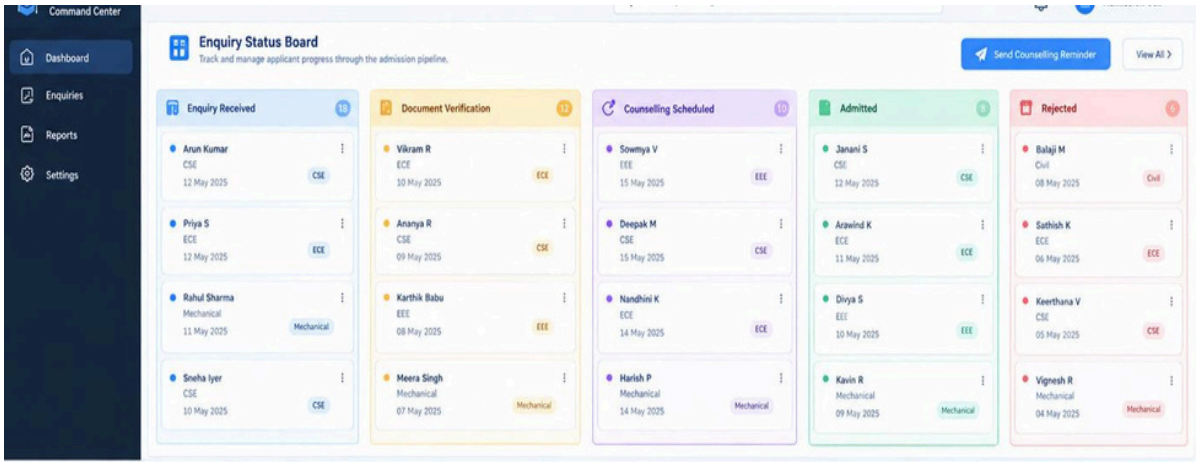

Figure 2: Sample Board before-and-after interaction.

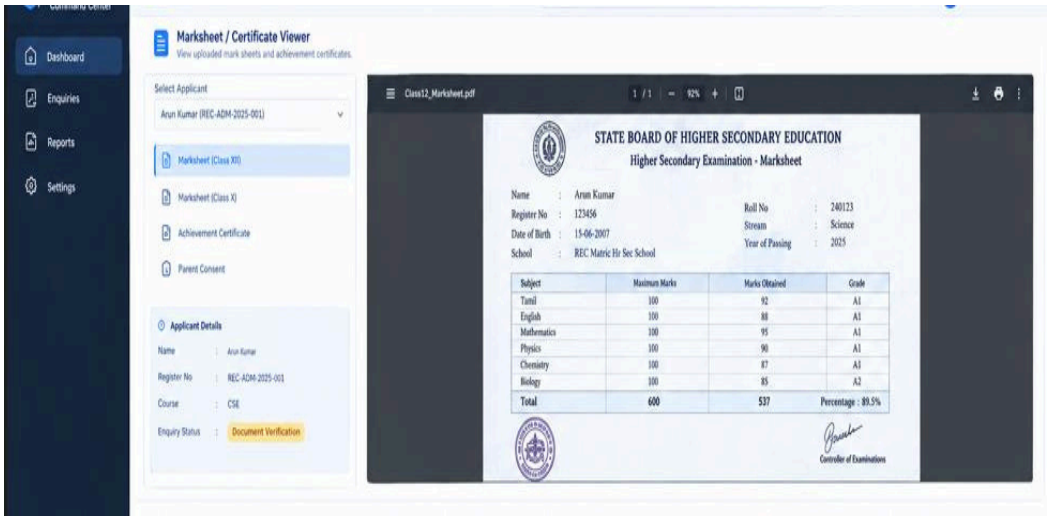

Figure 3: Sample Marksheet / Certificate Viewer.

6. Configuration Rules

- Panel access: Admission Cell and Department Coordinators only.
- Board: each column is mapped to the Status field; moving a card updates the record.
- Chart: refresh automatically to show current course demand.
- Gauge: display filled seats out of total available seats.
- Search: search Student Name, Register/Roll Number, and Preferred Course.
- Button: send reminders only to applicants with counselling within the next 48 hours.
- Report export: restrict Excel export to authorized Admission Cell head accounts.
- Viewer: display the latest uploaded marksheet or certificate.

7. Workflow

Staff open the page, check the gauge and chart, search for applicants, move records through the board, send counselling reminders, enter walk-in enquiries, review the report, and open checklists or uploaded documents when required.

8. Result

The Admission Command Center Page was designed using all eleven Page Builder elements. It combines monitoring, searching, applicant processing, quick actions, and document reference in one workspace. Actual Zoho Creator screenshots and interaction evidence must be added before submission.
